

FOR IMMEDIATE RELEASE

AcuTemp and AmSafe Bridport Sign Licensing Agreement for the Sale of AcuTemp's Thermal Pallet Shipper

Dayton, Ohio USA, September 16, 2005: AcuTemp, a manufacturer of high performance insulation, temperature sensitive packaging and mobile delivery technology, announces that the company has signed a licensing agreement with AmSafe Bridport, Dorset, England, for the sale of its new RKN Thermal Pallet Shipper. Under the agreement, AmSafe Bridport is licensed to market and sell the AcuTemp RKN pallet shipper to the air cargo market. The strategic partnership brings the expertise of both companies together to provide the air cargo market with a superior solution for safely shipping pallet-size, temperature-critical payloads.

AcuTemp, an innovative leader in thermal management solutions for over 25 years, has extensive expertise in the design and engineering of active, high-efficiency mobile refrigeration units, currently used primarily by the chemical-based and biological-based pharmaceutical markets. The AcuTemp RKN pallet shipper, scheduled to be released for sale in early 2006, utilizes this same advanced, proven technology to assure precision temperature control for a wide range of products in the cold chain distribution loop.

AmSafe Bridport is a known leader in the air cargo market providing an extensive line of aviation cargo securement systems to the industry. The licensing agreement assigns AmSafe Bridport as the exclusive marketer, seller and distributor of the AcuTemp RKN pallet shipper to the air cargo industry.

"We are pleased to partner with AmSafe Bridport as part of our overall strategy to bring this superior product to market," states Mike Mathile, President and CEO of AcuTemp. "By bringing together AcuTemp's advanced technology and AmSafe Bridport's leadership in the air cargo industry, our customers can be confident in receiving a reliable, high-performance product from knowledgeable industry experts."

Steven Boyd, the director of sales and marketing for AmSafe Bridport, will lead the sales effort for the AcuTemp RKN pallet shipper to the air cargo industry. For further information, Boyd can be contacted at steven.boyd@amsafe.com.

AcuTemp is an industry leader in the design and manufacture of high performance insulation and temperature sensitive packaging and mobile delivery systems. The company provides superior value thermal solutions for businesses with temperature sensitive requirements in industries such as pharmaceuticals, bio-medical, food delivery, and transportation. AcuTemp has its headquarters in Dayton, Ohio, USA. The company is privately held.
