

**FOR IMMEDIATE RELEASE**

**ACUTEMP ACQUIRES VACULOK<sup>®</sup> VACUUM INSULATION BUSINESS FROM MOCON**

Dayton, Ohio USA, October 5, 2005: AcuTemp, a manufacturer of high performance insulation and temperature sensitive packaging technology, announces that it recently acquired the Vaculok<sup>®</sup> vacuum insulation business. The Vaculok product line, formerly owned by Mocon, Inc., and prior to that by Advantek, has been integrated into AcuTemp's ThermoCor<sup>®</sup> line of high performance insulation.

AcuTemp is the leading manufacturer of high performance insulation and the largest producer of vacuum insulation in North America. With over 25 years of experience in product development and testing, AcuTemp has pioneered many advances in the industry, leading to highly efficient thermal management products used primarily in the pharmaceutical, biomedical, appliance, food delivery and transportation industries. AcuTemp's ThermoCor high performance insulation delivers an R value of 45 per inch thickness – up to seven times more efficient than the most commonly used insulation materials.

“Advancements in our ThermoCor product line along with greater product demand have led to significant cost reductions for our customers,” states Mike Mathile, President and CEO of AcuTemp. “Virtually any industry requiring temperature management solutions can benefit from the thermal efficiency delivered by the broad ThermoCor product line.”

In addition to ThermoCor insulation products, AcuTemp offers custom designed temperature sensitive shipping boxes for single or multi-use applications, mobile refrigerators/freezers used primarily for the transport of life-saving vaccines and blood products, and a thermal pallet shipper for the bulk transport of products requiring precision temperature control during transit. To ensure package performance, AcuTemp

offers a full range of engineering, testing and validation services according to International Safe Transit Association (ISTA) or customer protocols.

For more information about ThermoCor high performance insulation and its applications, visit [www.acutemp.com](http://www.acutemp.com) or contact AcuTemp by email at [info@acutemp.com](mailto:info@acutemp.com).

AcuTemp is an industry leader in the design and manufacture of high performance insulation and temperature sensitive packaging and delivery systems. The company provides superior value thermal solutions for businesses with temperature sensitive requirements in industries such as pharmaceuticals, bio-medical, food delivery, and transportation. AcuTemp has its headquarters in Dayton, Ohio, USA. The company is privately held.
